"The Legion of the Condemned"

A companion picture to "Wings" with Fay Wray and Gary Cooper.

Coming Fri., Oct. 19th

The Georgian Singers

Not a Picture.—An entertainment full of fun and melody, the old songs you have loved for years; the latest New York successes; the newest jokes. New people, beautiful costumes, new scenery. Hear the wonderful male trio. The critics pronounce this "The Best in the West."

Admission: All School Children 25c, Adults 75c.

Coming Saturday Nite, Oct. 20

"The Rough Riders"

That rough, tough, happy-go-lucky outfit—The Rough Riders! Cowboys and college men, hoboes and millionaires, East Side, West Side, Sunny South, Bawling North! The most romantic military organization the world has ever known is coming to thrill you as you've never been thrilled before!

Royal Purple Ladies Will Hold Dance

The Ladies of the Royal Purple of Champion are giving a Halloween dance in the hall at Carmangay on Wednesday evening, October 24th. Music will be furnished by Johnny Anderson and his five-piece orchestra, while balloons, confetti, noise-makers and everything that goes with Halloween will be in evidence. The Elks are out in strong array to support the ladies of the auxiliary lodge and every one who can be on hand on the 24th is assured of a real evening's enjoyment. This will undoubtedly be the big dancing event of the season.

Leave Champion For Ontario Home

Mr. and Mrs. Jas. Muir left on Monday for Brantford, Ont., where they will reside in future, a considerable crowd being at the depot to see them off. Prior to his departure Mr. Muir was presented with a handsome club bag by the Elks Lodge, where he had been pianist since its inception. Both these young people were popular in both town and district and many good wishes will follow them to their Ontario home.

The W. L. met on Tuesday at the home of Mrs. D. Watkins.

Mrs. Finkels of Lethbridge visited with Mrs. E. S. Bond during the week.

Geo. L. Deane, R. Tyler and H. E. Gill were in Calgary over the week end.

John F. Miller, eye specialist, was in town on Monday on his regular visit here.

J. Howerton's new residence in the subdivision is making rapid progress and will be a decided addition to the residence row of the Sub.

The World's Series has been so completely Yankee in its progress that the interest has waned considerably. The thing is altogether too one-sided to suit the public.

Eight cars were spotted at the elevators here on Monday and a temporary relief to the blockade resulted. While only a drop in the bucket, even small favors are thankfully received this fall.

Where is now the merry party I remember long ago? In other words what has happened to the Swede bridge club which used to function so successfully and constantly? Is it possible such a splendid organization has been allowed to lapse entirely?

A surprise party was held at the home of Mrs. W. C. Hoskins on Friday night, the occasion being her birthday. The guests of the evening were dressed as kiddies and the evening was spent in playing different kinds of games. The "Kids" presented Mrs. Hoskins with a lovely silver candelabra. Refreshments were served and the evening was very enjoyable in every respect.

The disastrous fire in the foreman's district should set as an incentive to the exercise of the greatest care in regard to setting fires for any purpose while the weather continues as dry as at present. There is every opportunity for a big loss in this vicinity from this source, as the long stubble left by combines, weeds, etc., would carry fire at a rate almost beyond conception until it occurs. By all means take every precaution with regard to fire.

The storm which threatened some days finally broke on Wednesday morning, after a drizzle during a portion of Tuesday. This is the first real interruption of threatening during the fall and nearly all the crop was threshed before it came. An odd outfit still has a few days to run but the majority of both threshing machines and combines have been pulled in. Considerable grain is still in the fields but is mostly well protected. While everyone would have been pleased to see the thing completed before the storm, there can be no doubt that the moisture is generally welcome after the long dry and dusty spell.

Ruby Graham

Teacher of Piano and Theory

In Champion on Friday and Saturday of each week. Studio at the residence of Mrs. M. Campbell.

Pupils prepared for examination if desired.

World's Supply Wheat Unusually Large

Since every country in the world is something of a factor in world wheat trade, the recent study, "Ex-European Trade in Wheat and Flour," by continents, by the Food Research Institute of Stanford University, gives a clearer view of the situation in relation to demand in other parts of the world than any other study now available.

"Ex-European imports of wheat and flour are becoming increasingly important. Between 1909-13 and 1921-26, the average annual volume of ex-European trade increased by some 45 million bushels, or 50 to 60 per cent, while European trade increased only about 30 million bushels, or not much more than 5 per cent. Growth of the Asiatic trade accounted for most of the increase in ex-European takings. Further growth is likely: there are few ex-European areas where domestic wheat production shows promise of obviating the need for imports; and per capita consumption of wheat is apparently increasing in most of these countries. Within a decade or so the ex-European trade may amount to as much as a fourth of the international trade, as contrasted with an eighth before the war.

"European imports have always constituted chiefly of wheat, ex-European imports chiefly of flour. In the post-war period, the flour trade of Europe was almost as large as that of Europe. But flour tends to become a smaller fraction of the trade in wheat and flour combined, since several important importing countries now protect their domestic milling industries. The United States remains the chief source of ex-European supplies of wheat and flour, but has become relatively less important with the more rapid expansion in the exports of Australia and Canada."

Among the varied studies of demand for and supply of wheat, it is possible to secure statistics and construct a story quite favorable to the possibility of such a steady growth in world wheat requirements as to absorb all probable production. On the other hand, it is also possible to study the potential increase in supply from Canada, Argentina, Australia, Russia and Manchuria, and to come to the conclusion that the world is on the verge of a period of immense overproduction.

At present the outlook is uncertain, due principally to this year's large crops which seem to threaten overproduction in the immediate future. The large indeterminate factors in the situation are each of sufficient consequence so that one cannot be certain of attaining an approximation by offsetting those that are favorable against those that are unfavorable. But those who take a balanced view of the long-time trend realize that there is likely to be a normal proportion of crop failures, that a year or two of low prices will reduce production substantially, and that in the long run the high level of prices and wages in the United States will reduce their export surplus more effectively than it can be done by legislation. The world's growing population is bound to require a steadily increasing wheat supply. From Royal Bank Monthly Letter.

Dr. and Mrs. A. R. Hagerman, who have been visiting at the homes of J. D. Hagerman and R. A. Clements, left for their home in Toronto on Wednesday.

Mrs. E. Freeze and Mrs. Geo. Campbell were hostesses on Monday at an afternoon tea in honor of Mrs. Bell, who leaves shortly for her home at Thorold, Ont.

While the increase in the price of wheat since the beginning of 1925 deliveries has not been large it has been exceedingly gratifying to find that immense deliveries have not affected the market adversely.

The installation of an automatic electric pumping engine in connection with the Savoy hotel water system is a long step forward and will also ensure the presence of satisfactory pressure in case of fire. The new equipment is the very best available.

Every possibility in the way of a town residence is in use and a great many who would like to move to town for the winter are unable to find accommodation. There is a decided opening for the construction of more houses.

She—I'll never go anywhere again with you as long as I live!

He—Why not?

She—At the tea this afternoon, you asked Mrs. Smith how her husband was standing the heat and he's been dead two months.

SOCIETY BRAND CUSTOM SERVICE

For Those Who Prefer Custom-Made Clothes

We Have Them By

Society Brand

Many men who want Society Brand features in their clothes . . . the exclusive fabrics . . . the Vac Bole armholes . . . the Snug-Ease Shoulder . . . the inimitable cut . . . yet hesitate because of a deep-rooted desire for clothes tailored to their individual measure.

To these men we offer Society Brand Custom Tailoring Service in a wide choice of new Fall fabrics. Patterns, weaves, colors . . . the same distinguished showing as in Ready-to-wear clothes . . . will be cut and tailored to your own measure, the Society Brand way. For men of twenty, men of sixty and all between.

Let Society Brand Custom Tailor Your Clothes

\$35 to \$75

Let us help you out in the selection from our new stock of Hats, Shirts, Ties, Scarves, Sox, Spats and Oxfords to match your Suit and Overcoat.

Right NOW, while our stock is complete.

JOPLINGS

If Winter Comes

You will find this store with the largest and finest stock of

THURSDAY, Oct. 11, 1928

NOTES AND COMMENT.

Cement is an excellent example of how lower tariffs build up industry. For years, the cement manufacturers suffered from a tariff of 12½ cents per hundred pounds. Finally this was moved down to 10 cents with a further cut under the British Preference and intermediate tariff. Then in 1919, the rate was cut to 8 cents on the general and intermediate tariffs and 5 cents under the British Preference. With each downward revision of the tariff, the industry moved forward to greater conquests. In 1909, production was under 5,000,000 barrels. In 1914, it was approximately 7,500,000 barrels. In 1927 it stood at 10,000,000 barrels. Meanwhile, the annual profits of the manufacturers increased from year to year. At the recent cement hearing before the Tariff Board, Mr. F. B. Jones, former General Manager of Canada Cement, stated that it had been his policy to cut the price of cement to a point at which there was practically no imports, thus, giving the market to the Canadian manufacturers and lowering the price to the Canadian people. Incidentally, this gives a larger amount of employment to Canadian labor—this is the natural and logical result of lower tariffs. It is for these things the Consumers' League fights.

WINTER HOUSING THE PULLETS

(Experimental Farms Note)

When the pullets begin to show signs of sexual development by the reddening of the combs, it is high time that thought be given to their winter quarters.

The houses should have been all thoroughly cleaned and disinfected and thrown open for the sun and air. Leaking roofs and broken windows should be attended to before the pullets are put into the houses.

When the pullets are put into winter quarters the houses should be kept wide open for as long a period as weather will permit, as nothing is more conducive to fall colds than taking pullets off free range and confining them to a stuffy house. They should be fed heavily on green feed and sparingly on grain until they become accustomed to confinement. Keep them active by feeding the grain sparingly in a deep litter. A week to ten days after confinement a purgative of Epsom salts (about one-half to one pound to 100 birds) helps greatly to keep the birds in health. The change from summer conditions and change from summer conditions and heavy feeding should be made as gradual as possible.

TENTH FORTNIGHTLY CROP REPORT

(Issued by Department of Agriculture, Government of Alberta, at Edmonton, October 4, 1928.)
Threshing is fully seventy-five per cent completed throughout the province and good progress is being made with the remainder, according to telegraphic reports received by the Department of Agriculture for the tenth fortnightly crop report of the season.

Weather conditions during the past two weeks have been generally satisfactory, although in a number of localities light falls of rain and snow have hampered operations to some extent. Grain is moving rapidly to market and at some country points elevators are reported to be filled to capacity.

Recent reports make it difficult to estimate with any degree of accuracy the damage resulting from frost. In a number of localities and in the case of earlier crops generally, injury has been very slight, while in other districts the quality

of a considerable percentage of the grain threshed has been lowered from one to three grades, and a mark decrease from the anticipated yield is reported.

In the Peace River country the season has been very satisfactory, and grades on the average are stated to be better than for last year's crop. A great deal of fall plowing has been done throughout the province, and this, along with the large amount of land newly broken during the past summer, promises an increased acreage in readiness for next season. Good progress is being made with the harvest of the sugar beet crop in the southern part of the province, and very satisfactory yields are reported.

WHOOPING COUGH

Whooping cough is very dangerous to children and sometimes fatal to grown-ups, more people die from it than from scarlet fever.

The mother whose children have had whooping cough does not need to be reminded of its symptoms. She can remember her child running to her gasping for breath, catching hold of her skirt for support and finally breaking into that painful rasping cough. Whooping cough starts with a slight cold, running at the nose, fever, and a dry cough. The eyes are bloodshot. After a week the cough gets worse and the child coughs many times in succession. He becomes pale and draws in his breath with a sharp scraping sound. This is the whoop. In some cases this is not always present.

If a child shows the first signs of whooping cough, call the doctor, and follow his directions absolutely.

The child frequently vomits because of hard coughing. As a result many children lose weight and become weak. In this condition they easily get T. B., pneumonia or other serious conditions. Do not give the child heavy foods. Give them easily digested. Milk and eggs are very good. Give an egg well beaten in milk every time he loses a meal.

All discharge that comes from the mouth and nose while the child is sick should be received in a piece of clean old linen or rag and burned. It is through carelessness in this that the disease is spread. Keep separate cups, glasses, plates and spoons for the child while he is sick. See that the child gets plenty of fresh air. Keep the room well aired night and day. Unless it is raining, take him out every day, in the yard or into the park.

Keep the child away from others, even after the whoop has stopped he can give the disease to others. Wait until the doctor says he is well. Remember that whooping cough is very catching. Be sure that your child does not spread disease and possible death to others.

Pamphlets on communicable diseases can be had from the Canadian Red Cross Society, 408 Civic Block, Edmonton.

On March 1, 1929, opium smoking will be emphatically prohibited in China. Let those who recognize the wisdom of that prohibition law remember that liquor is to the Occident what opium is to the Orient.

Children of the Appalachian Mountain region are reported eager for an education. They are used to surmounting stiff grades, and gaze in quiet satisfaction from the peak of their accomplishment.

Any Intimely Suggestion?

While you are waiting for cars to move your wheat in order that you may meet your major obligations why not think of the little ones?

These are bound to include your newspaper account, an unimportant one to you (it is so small), but very essential to the publisher.

Think it Over!

CHIN COULEE AREA FIGHTS
BAD BLAZE

Foremost, Oct. 5.—A prairie fire which started on the north bank of Chin Coulee, near the Albert Green sheep ranch between Skiff and Purple Springs, is raging. All possible men of Bow Island, Burdett and Foremost have been called out and at three o'clock were fighting a losing battle in a high wind blowing from the west.

The fire had travelled more than ten miles in four hours but its frontage is at present unknown.

A number of farmsteads have been wiped out, and some grain fields which had not been threshed had been burned.

At three o'clock the fire was nine miles from Foremost and approaching this town.

Most of the grain in the district has been threshed, but a lot of it is stored in granaries in the fields in the path of the fire.

Residents of the district characterize the fire as the worst experienced in recent years.

Southeastern Alberta is now catching the losses sustained in Friday's prairie fire, the worst this country has experienced in many years. Some describe it as the most destructive on record, for it left in its wake a picture of desolation covering probably 50,000 acres over an area approximately five miles wide and 22 miles in length.

It is difficult to compute the losses, but estimates made Saturday morning indicate that 100,000 bushels of binned grain as well as much in the stock feed a prey to the flames. So far as can be learned there was no loss of life. Moreover, it is believed the loss of livestock was negligible as in spite of the rapidity of the fire, flocks and herds managed to reach places of safety before the fire reached them.

Granaries Destroyed

Numerous barns and granaries were licked up by the flames fed by the dry, brittle stubble and straw-stacks lying in their path. Friday night there were reports current that several farmers had lost their homes and barns in the blaze, but there has been no confirmation of this. The Highfield school district teacherage, 12 miles northwest of Foremost, was burned, but the schoolhouse nearby was saved.

2,000 Men in Fight

Farm residences were saved largely through the protection of fireguards and the heroic efforts of the hundreds of men mustered out by Provincial Constables Craig and Wilson of Bow Island and Foremost. The stubborn resistance given the fire by the 2,000 or more farmers and townsmen, old and young, was rewarded about 5 o'clock when the blaze was brought under control. The men, often at the point of exhaustion in the heat and smoke, fought the fire

with water soaked gunny sacks, while others plowed fireguards and back-fired in a combined effort to stem the blaze sweeping east and south at the rate of 40 miles an hour.

Sparks Start Fire

A wind from the southwest carried the fire as it on. It started shortly after noon on a farm south of Purple Springs, sparks from a threshing rig being the cause. For a time the town of Foremost was believed menaced, but the Chin Coulee served as a safeguard. The fire was confined between Chin and Forty Mile Coulees, the first stopping, according to advice from Foremost, about one mile west of the graded road north and south between Foremost and Bow Island.

Some of the sufferers, a check made at Foremost shows, were the following:

Some of Sufferers

A. Schaaf, 3,000 bushels of threshed wheat.

John Huismann, 1400 bushels of threshed oats, 100 acres of unthreshed wheat.

L. C. Kraan, 40 acres of stocked wheat, 300 bushels of rye in bin.

M. Van Staldine, 110 acres of wheat.

K. Ekensten, 130 acres wheat in stock; J. S. Degenstein, 100 acres wheat.

A. A. Anderson, unestimated amount of stocked grain.

These farmers are located from 10 to 12 miles northwest of Foremost. In the district lying south of Grassy Lake and Burdett many losses were sustained but names of those who suffered were not available Saturday morning.

ALBERTA'S MOTOR CAR TOTAL
NEARING \$5,000

Auto registration in Alberta for the current year will likely hit the \$5,000 mark, according to information recently given out at the provincial government offices. The total up to the present is \$2,500 and it is felt certain to increase by \$2,500 during the remaining months of the fiscal year. Last year there were 75,364 car owners in this province, so that a substantial gain is revealed for 1928.

Revenue from registration last year was \$1,310,482, while for 1928 it is estimated at \$1,800,000, or a gain of upwards of \$500,000. The yield from gasoline taxes can only be estimated as the governing factor in a large extent in the season, but officials figure that this should bring in at least \$500,000, the levy being at the rate of three cents per gallon.

Lumping of these items gives a revenue total of \$2,600,000 that the provincial government will take in from the automobile owners of Alberta, and from tourists through the gasoline tax. This huge sum is naturally going to revive discussion among motorists in regard to the desirability of the province earmarking all such revenue for the purpose of improving the highway system in this province.

The Alberta Motor Association, at its annual meeting last March at Calgary, made a definite pronouncement of its views upon this matter in the following resolution:

"Whereas, the government of the Province of Alberta collects from motor car owners license fees and gasoline tax an amount which is increasing each year;

"And whereas the said license fees and gasoline tax are at present paid into the general revenues of the province;

"And whereas in announcing at the last session of the legislature that the gasoline tax would be increased from two or three cents on the gallon, the Premier, Hon. J. E. Brownlee, said that the said tax would be used in highway construction and repair;

"And whereas it is considered only fair and reasonable that all such monies when collected should be definitely set aside for the express purpose of the construction and maintenance of the roads required by the motorists who pay said license fees and gasoline tax;

"Be it resolved by the members of the Alberta Motor Association at their annual meeting assembled that they respectfully request the government of Alberta to set aside under statute all motor car license fees and gasoline tax when collected, to be used exclusively for highway construction and maintenance in the province."

CONSERVATIVES RETURNED IN
NOVA SCOTIA—RHODES GOV.
REINVESTED WINS 23 TO 19—
17 GAIN FOR LIBERALS

Halifax, N. S., Oct. 2.—Hon. F. N. Rhodes, tenth premier of Nova Scotia, last night became the first Conservative leader to be invested with the authority of that position for a second term.

The Conservative government that in 1925 succeeded a Liberal regime of 43 years, received re-endorsement yesterday at the polls, but the majority of thirty-seven, enjoyed by the party in the last legislature, was cut to three as the Liberal oppositionists registered a net gain of 17 seats. At the time of dissolution 37 Conservatives and three Liberals sat in the house of assembly, three Conservative seats being vacant.

CHAPTER II—Continued.

Fresh from his exercises and steps, his cheeks red, his dark eyes shining with the clear glow of health, and showing signs of health, Donald was a picture of rugged health and strength. But for all this apparent outward brightness, inwardly he felt rebellious. Douglas's invitation had brought a great longing for the comfort of his past life. Why should he assume the role of a pugilist to elude an existence? Why wear shabby clothes and even know the pangs of hunger? He had lost his father that he was destitute and plenty of money would be forthcoming.

A big steak at "Old Joe's" furnished him a hearty meal. As he selected the money from his baggy supply of cash to pay his check, Old Joe bled his grizzled head forward. "Don't go hungry, come in any time."

"Thanks, Joe," Donald was in a dark mood. He heard the sound of happy laughter coming from a saloon on the corner. There behind those swinging doors was merriment and the warmest of cares. He stood in the door of the restaurant and looked across the inlet at the twin peaks, known as the "Lions," which guard the entrance to Vancouver's harbor. The sun was setting in a mass of fleecy clouds, the clouds became a tawny gauze and a golden splendor spread over the water. The mountains were suffused in violet, while the water took on a faint stain of rose. Donald's face glowed as he watched.

"Some country," he breathed. He turned to catch a friendly smile from Old Joe as he worked over his range. "And some people!" he added fervently.

Once more he turned to the mountains. The glow had vanished and the Lions stood in bold relief against the clear sky. The massive snow-capped peaks seemed to impart a new strength to his being. "I'll not quit. I'm going to make good," he said grimly.

CHAPTER III.

While on his daily run around Stanley Park the next afternoon, Donald was attracted by a horse and rider standing on Prospect Point. The rider was interested in a huge white steer plowing his way through the Narrows, backed a head tie. The horse, a noble animal, with full mane and tail, was restive, rocking and prancing in his eagerness to be off.

When Donald lifted his eyes to the rider he saw a beautiful, husky face with skin of a milky whiteness, a heavy mass of dark brown hair, neatly coiffed under a trim riding hat, and a pair of wonderful brown eyes that suddenly grew large.

MEDICINE FOR YOUNG GIRLS

Mothers Endorse Lydia E. Pinkham's Vegetable Compound

Sydney, N.S.—"My seventeen year old daughter took Lydia E. Pinkham's Vegetable Compound for weakness and pains. She could go to school much with the other girls as she was not strong enough. With the compound and it did her a great turn. She is working out now in a case and walks three miles every morning and back in the evening. —Miss Mary YANKEE, 44 Linnet Road, Sydney."

Pinewood, Ont.—"I constantly had pains in my back and side and spent two days in bed each month. I have taken three boxes of Lydia E. Pinkham's Vegetable Compound Tablets. They have done me good and I always have them in the house. I have recommended your good medicine to several friends and have given it to my 17-year-old girl. —Miss Anna OGDEN, Pinewood, Ontario."

W. N. D. 1754

how they woody lower, sir Don, the goddess awaits thee.

Something inwardly, Donald tried to appear dignified as he stepped to the road, but the attempt was a dismal failure. How could one approach anything like dignity when dressed in a pair of running trunks, a torn and frayed jersey socks turned down over a pair of dirty tennis shoes, and without hat or coat? All this said, the fact that he dressed a battery of two big brown eyes, who thought him a monster. The greatest actor in the world would fail to register dignity under such conditions. He had a confused remembrance of a jumble of words that went for a formal introduction. He felt his face hot, and knew he was blushing furiously, which did not add to his composure.

The girl looked down curiously, but not without interest, at the embarrassed young man.

Donald finally mustered courage to glance up at the face above him. The deep brown eyes regarding him held just a trace of humor. The full red lips were parted to show a flash of white, even teeth.

"It is a pleasure to meet you even under such inauspicious circumstances," remarked Donald. He turned to glance at the grinning cause of his discomfiture. "I would suggest, Miss Renale, that you have a doctor waiting at your home, as I intend to commit my bones on the person of your brother as soon as you have gone."

(To Be Continued.)

Sleep is the great nourisher of infants, and without peaceful sleep the child will not thrive. This cannot be said of the mother, for the mother's sleep is often disturbed by the child's rest will be undisturbed. The powder can be used on the mother's face and there is nothing so effective for keeping the health of a worm-eaten infant.

Recipes For This Week

(By Betty Barclay)

Orange Balls

Soak orange peels three days in cold water changing the water daily; then put in hot water, and boil until soft. Drain, wipe dry with cheese cloth, chop fine, and measure. Take one egg, beat it, add sugar, and for each one-third of a cup of sugar add two tablespoons each of water and butter, and boil until it will split a thread, then add the chopped peel about five minutes; cook up on a board, sprinkle with granulated sugar, and shape into small balls. These may be rolled in coarse sugar and allowed to dry, or they may be dipped in fondant, flavored with vanilla. They are delicious dipped in chocolate with a few grains of chocolate sprinkled on the top of each chocolate before it hardens.

Tenderloin of Beef Stuffed with Oysters

Large tenderloin.
One pint oysters.
One teaspoon cracker crumbs.
Salt.
Pepper.
Celery salt.

Split the tenderloin. Season with salt and pepper. Make a dressing with the oysters, crackers, and season with salt, pepper, and celery salt. Spread part of the one tenderloin with dressing. Put the other one-half tenderloin on top. Tie together with string and larks. Bake at 350°.

Minard's Liniment—Popular for 80 years.

There is in Fifth Avenue, New York a 12-story apartment building in which every door knob is gold plated. In one first every hinge, door handle and key of gold.

Isn't it funny how people entirely without principle manage to draw a great many interests?

Agrees with Baby

Bottle Brand Condensed Milk has been used for baby food for generations. With The Borden Company Limited, Montreal, for Free Feeding Charts and Welfare Booklets.

First Bachelor: "Is there anything in this affair of yours with the heiress?"
Second Same: "Millions, I hope."

Minard's Liniment for aching joints.

Inspiration From

Commonplace Things

Door-Knocker Gave Beethoven Idea for Glorious Concerts

To an ordinary mind that would be scarcely seem possible that much music could be got out of a door-knocker. Yet it was this sound which was the inspiration of Beethoven's violin concertos in D. As the musician lay awake one night shapening the concerto in his mind, his musings were interrupted by a neighbor who was endeavoring to break for his housekeeper and get her to come down, and let him in. Beethoven heard his persistent knocking for admission—four slow deliberate knocks at a time. The constant repetition gave the composer the idea he sought and those four knocks are heard all through the opening movements of the concerto, which begins with four unaccompanied D's on the drum—seemingly as unmelodious and unpromising as the sound of a door-knocker.

In commenting upon the circumstances Sir George Grove has said: "These four knocks were to Beethoven what the bulk of the old world was to Turner, or the daffodils to Wordsworth—commonplace in themselves but transmuted by the genius into an imperishable monument."

A PROBLEM FOR
YOUNG MOTHERS

Stomach troubles cause most of the distress of babyhood and childhood, and are the greatest problem that a young mother has to solve. The treatment for these digestive disturbances that make baby cry continually and what the mother must do to be effective, and above all, perfectly safe.

The absolutely safe treatment for disturbances of the stomach and bowels is found in Baby's Own Tablets. Thousands of mothers have solved their problem solved through them. They are guaranteed to be free from all injurious drugs, and cannot possibly do harm to even the youngest babe—they always do good.

Buy Baby's Own Tablets to regulate the stomach and bowels; banish constipation and indigestion; soothe the stomach and simple fevers and promote that health-giving sleep which is so necessary to the welfare of the baby or growing child. The Tablets are sold in all medicine dealers or by mail at 25c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Roman Understood
Method of Soldering

Sample of Work on Iron Ferrule Discovered in Ancient City

A method of soldering two pieces of iron together with copper was known to Roman artisans in England nearly two thousand years ago. This is shown by a deep iron ferrule like a modern service ring unearthed during excavations of the Roman city of Uricumion, located in the river Severn and destroyed about A.D. 260.

Lead pipe manufactured and laid in Rome's water system 1,800 years ago was recently pronounced to be in perfect condition.

Great Lakes "Gambling" Season The "gambling" season of the Great Lakes is near at hand. States that mount to millions and involve the lives of men are on the boards of the shippers who mean will be sending their mighty grain and ore carriers to fetch that last cargo of the season and in doing so they stake their ship and the lives of the men against the elements which only last year claimed five ships as victims and cost the lives of 24 men and two women.

Pettition: "You, a few lettuce leaves without oil, and a glass of orange juice. There, madam, that completes your daily diet."

Man Overweight: "Thank you so much, Doctor, but do I take this time for or after meals?"

First Bachelor: "Is there anything in this affair of yours with the heiress?"

Second Same: "Millions, I hope."

Minard's Liniment for aching joints.

Teeth and Health

Tooth Turns Black

Your white pearls have perhaps been excited the admiration of your friends and your pride in them fairly pandemonium.

But one day a tooth that you had been intending to have "fixed" ceased to bother you until by and by you noted with some little alarm that this tooth was quite dark in contrast to its fellows.

Or, perhaps, your dentist because of your neglect found it necessary to remove the tooth from a tooth which which operation you found with some dismay that it had changed color, and noticeably so.

Now, what has caused it? Contrary to your idea, possibly, a tooth gets its shade, not from the outer enamel covering, which is almost colorless, but from the array of colors in the underlying body of dentin.

As a consequence to pulp death and decomposition, we have a disintegration of the blood elements with the production of pigments or color compounds. These permeate the dentinal structure through its many little tubuli and are reflected through the dental substance.

A less frequent cause is from the use of remedial agents employed in tooth treatments, many of which have the property of staining the dental substance.

Now, unfortunately, as you can see, all of the scoring that you may do is of no avail—like the historic rope of "Macbeth"—it will not "cut." However, your dentist by employing bleaching agents within the tooth cavity can with fair success restore the shade. If the discoloration has not remained too long.

Tourists Aid Development

The tourist is often the forerunner of the homemaker and investor. He visits the country and sees with his own eyes the character of the people and resources, and if he later returns to settle or invest he is able to do so in a more satisfactory manner.

THE EASY WAY

Thousands need cod-liver oil to increase vitality and build up resistance.

Scott's Emulsion

Is the easy and pleasant way to exact the most of cod-liver oil to reinforce your body with strength to build resistance.

Little Helps For This Week

"Thou hast dealt well with Thy servant, O Lord, according unto Thy word."—Psalms xcix, 65.

Beneath the splendor of Thy choice, Thy perfect choice for me I rest; Outside it now I dare not live, Within it I must needs be blest.

Jean Sophia Pigott.

I would rather be what God chose to make me than the most glorious creature that I could think of. For to have been thought about—born in God's thought—and then made by God, is the dearest, grandest, most precious thing in all thinking.

George Macdonald.

Stage Manager (to new hand) "Now then, everything's ready Run up the curtain."

Stage-Hand "Wot yer talkin' about? Run up the curtain? I'm a stage-hand, not a bloomin' squirrel!"

Charlotte Dance Contest

Judge By England's Leader Miss Leslie-Sutton, chief judge of the Charleston contest for England, writes: "My own position in the dancing world today would never have happened if I had not taken care of my health."

I constantly had that tired out, depressed feeling, with sick headache and indigestion, biliousness, the poisons of constipation. Your mild laxative has been of valuable assistance in keeping my system in a daily healthy condition.

CARTER'S LITTLE LIVER PILLS All druggists—25c and 75c per box.

EVEREADY Radio Batteries

—they last longer

Try It Yourself, Too!

You Can See Why a Leybairt

Lasts Longer

We would like you to try a new Eveready Leybairt to find out why it lasts longer—then after you have one of these batteries, you will never want any more.

You'll see how solid with correct-making elements it was how they have the best plates of carbon and silver wire, giving the last bit of energy before your Leybairt finally "gives out."

You'll marvel at the great improvement over the old Leybairt batteries that you used to use—and we know that you'll be satisfied that the long life and economy of your Leybairt was not just a mere accident or a mystery, but a certainty of long life and economy of your Leybairt.

ROYAL YEAST CAKES

STANDARD OF QUALITY FOR OVER 50 YEARS

MAKE BETTER HOME MADE BREAD

ROYAL YEAST CAKES

WORLD HAPPENINGS BRIEFLY TOLD

One of the finest old churches in Moscow, the "Stranney Monastery" is being converted into an Anti-Religious museum.

Leon Vanderstuyt, Belgian cyclist rider, broke the world motorcycle record for sustained speed when he rode 70 1/4 miles in one hour.

A report is current in Bucharest that Poland, Roumania and Greece have concluded a military agreement to make a common front against Russia in the event of war.

Thousands of cattle have been drowned in the flood that came after the bursting of the Yeer dykes in Delphin and farmers estimate their damage at about \$25,000,000.

The Canadian Press was reliably informed that there is no reason to believe that the Duke and Duchess of York contemplate an early visit to Canada, as rumored in Ottawa.

T. Nichols, of the Royal Canadian Mounted Police, Lethbridge, Alta., will receive the Imperial Service medal awarded by His Majesty the King, according to the Canadian Gazette.

Great Britain and the U. S. have continued for another year their agreement on administrative co-operation for the prevention of smuggling liquor into the United States by ships flying the British flag.

It was reported in League of Nations circles that the Irish Free State, following the example of Canada, is planning to establish a legation in Paris and appoint a minister to France.

The appointment of Jean Knight as French minister to Canada has been announced officially, confirming previous intimations that Mr. Knight would be sent to Ottawa as France's first diplomatic representative in the Dominion.

Fine Shipment of Heralds

Range Cattle From Alberta Bring Large Sum in Chicago

Ninety-three head of dry cows from the McIntyre ranch in Alberta were recently consigned to Chicago in exchange for a \$10,000 cheque. Cattlemen looking over the shipment claim that it is one of the finest lots of range cattle ever forwarded from Calgary. The heaviest animal in the lot tipped the scales at 1,700 pounds and the ninety-three averaged 1,350 lbs. These cattle come from one of the few remaining old-time ranches which is running a herd of upward of 5,000 Heralds.

Men's belts are used mostly for sports wear in Great Britain.

Ships that cannot afford wireless cannot afford crews.

Reduce the Acid

PHILLIPS' MILK OF MAGNESIA

Stick stomachs, sour stomachs and indigestion usually mean excess acid. The stomach nerves are over-stimulated. Too much acid makes the stomach and intestine sour.

Alkaline milk acid instantly. The best form in Phillips' Milk of Magnesia, because our harmless, non-toxic, does neutralize many times its volume in acid since its invention, 50 years ago, it has remained the standard with physicians everywhere.

Protect Submarine Crews

Italian Has Invention That May

Cesar Borghetti, inventor of an apparatus for saving the lives of submarine crews in case of danger, has succeeded in interesting the Italian government in his invention and now gives the press some details of his amazing invention.

Signor Borghetti's apparatus consists of several hollow cylinders attached to the sides of the submarine in such a way that they do not impede its passage through the water. The number of these cylinders depends on the number of men in the crew.

The other chambers are reached by two doors from the interior of the vessel. Inside of each of these cylinders is another airtight chamber with four compartments holding compressed air.

When the shipwrecked crew is inside the air chamber and the doors are tightened, a lever releases it from the outer cylinder which is firmly attached to the side of the submarine. The cylinder containing the men is constructed in such a manner that it will float, automatically, to the surface even from a depth of 600 feet.

Any Woman Can Look Stylish

Most stylish looking women know a few simple ways to make their dress and accessories conform to the season's styles. Thousands have learned how easily they can transform a dress or a blouse or coat, by the quick magic of home tinting or dyeing. With true, fadeless Diamond Dyes, anyone can do this successfully. "Know-how" is in the dyes. Diamond Dyes don't streak or spot like inferior dyes. New, fashionable tints appear like those from the outside or faded clothes. Tinting with Diamond Dyes is easy as bluing, and dyed takes but a little more time. Only Diamond Dyes produce perfect results. They have been perfected by over 50 years experience. Insist on them and save disappointment.

"Color Craft" my big new book of dollar-saving hints, will be sent you FREE. Write Mac Martin, Diamond Dyes, Windsor, Ontario.

Opening of Bay Route

Suggestion Is Made to Hold Monster Excursions From All Parts of Canada

By way of establishing an "entente cordiale," W. Moss Thrasher, secretary of the United Farmers of Canada, Saskatchewan section, suggests that the opening of the Hudson Bay trade route to Great Britain be celebrated by a huge excursion to all parts of Canada, the mid-western states and Great Britain, the meeting place to be on the shores of the bay.

Mr. Thrasher also suggests that at the same time the Federal government should take steps to eliminate all trade restrictions with the Mother Country and bend every effort toward centralizing the huge purchasing power of western Canada.

He believes that this would be the first logical step towards solution of Western Canada's immigration as well as industrial problem, and that something should be done when the west is more closely linked with the Old Country by the opening of the Hudson Bay route.

"Western Canada sells its surplus products in Great Britain," he says, "and accordingly should buy manufactured products required from that source. No country can carry on successfully by selling to one market and buying from another. Someone else has to suffer. The lack of balance will eventually be felt."

It is essential that boys have comfort while asleep as during the play hours. Mother will be happy to find this simple pajama pattern is large and roomy for the little fellow, yet tailored enough to suit the grown-up boy. Any soft washable material is suitable for this night-garment. The collar is high about the neck or rolled low for the warm weather. Buttons and buttonholes or braids finish the front closing. No. 1106 is cut in sizes 4 to 16 years. Size 10 requires 3 1/2 yards 32-inch material. Size 16 requires 5 yards 32-inch material. Pattern 25 cents.

NEW HOTEL AT LETHBRIDGE

The Marquis Hotel, Lethbridge, Alta., which has been recently opened to the public, under the management of Mr. A. W. Edwards. The Marquis is fully modern in all its appointments, is a decided asset to the city of Lethbridge, and is proving quite popular with the travelling public. The Marquis Hotel was named after the new variety of wheat of that name, and was built as a community enterprise at a cost of \$275,000.

Cattle Feeding Awards

C. B. Latta, Govan, Wins Prize in Connection With Saskatchewan Competition

C. B. Latta, Govan, Sask., won the first prize of \$100 in the carload lot contest staged in connection with the Saskatchewan farmers' cattle feeding competitions, according to the report of the judges' awards received by Hon. C. M. Hamilton.

Mr. Latta also won second prize, \$45, in the competition for groups of ten to fifteen animals, and second prize of \$20 in the group of five animals, making a total of \$165 in prize money. In addition he had his steers at good prices. Mr. Latta made a gross profit of \$48.63 per head on his carload lot, \$43.17 per head on his group of ten, and a gross profit of \$67.70 per head in his group of five. C. J. Peters, of Brownlee, won second prize, amounting to \$75 for the records made by his carload lot. Mr. Peters made good profits. A total of 10 steers were sold at a gross profit per head of \$58.36. A net profit of over \$20 per head. Among other prize winners, B. A. Wright, Drinwater, won fourth prize in the carload lot, and also fourth for group of five.

Many Plans in Pageant

Thousands of People Attended Air Mail Service Inauguration

The first aerial mail service between Canada and the United States was inaugurated October 1 at St. Hubert aerodrome, near Montreal, where a great aerial pageant, in which fifty planes took part, commenced at 9 o'clock in the presence of thousands of spectators. Planes of various types, including the Mohawk, Ford Trimotors, Sikorsky, Vickers-Victor, Sikorsky-Detrol, Avro Avian, as shown by Hinkler from England to Australia, Leaning Airphibian, Pitcairn Mailwing, tri-motor Ford, and the most interesting of all, three Sikorsky fighters, participated in the evolutions. The Sikorsky were sent by the Royal Canadian Air Force, and are reported to be the most deadly fighting machines in existence.

They were seated across the table from each other in the restaurant, the wealthy octogenarian and the gold digger.

"Will you marry me if I have my health rejuvenated?" he asked.

"I'll marry you, all right," she replied, "but you leave your health the way it is."

"I've been trying to think of a word for two weeks."

"He—how about tonight."

Poverty is no disgrace. At least it is better than being a multi-millionaire with chronic indigestion.

The herd of 700 buffalo found in 1907 by the Dominion of Canada at Takhlo, Mont., now numbers 16,000.

DIARRHŒA
Was So Bad
Child Passed Blood

Mr. Harry Nesbitt, R. R. No. 8, Shannon, N.H., writes:—"Last fall my little boy took very bad with diarrhea and before I knew it he was passing blood. I went to our medicine case and gave him a dose of

Wife (to returning husband at seaside resort): Oh, darling, I'm so glad you're home. We heard that some idiot had fallen over the cliff, and I felt sure it was you."

We have often wondered, in our innocent way, whether the inventor of the telephone booth also designed the breakfast nook.

SUNDAY SCHOOL LESSON

OCTOBER 14

SPIRITUAL GIFTS

Golden Text: "Now abideth faith, hope, love, these three; and the greatest of these is love."—I Corinthians 13:13.

Lesson: 1 Corinthians 12-14. Devotional Reading: 1 John 4:7-10.

Explanations and Comments

Spiritual Gifts are Diverse, but the Spirit is the Same 12:4-7.—There was rivalry among the Corinthians as to which of them possessed the greatest gift for God's service. The tendency at Corinth was to estimate spiritual gifts by their showy rather than their solid character. The reverse was true of the Spirit.

"The things we consider most remarkable may, after all, be least important. An ecstasy is pleasant, but strength to endure with fidelity is most significant. The foundation of our faith in Christ is our own soul as we are possessed of the Spirit of Life." (John Gardner.) There are different gifts. Paul wrote the Corinthians, but the same Spirit revealed himself in them all; therefore different ways of manifestation, but back of them all is the same Lord, there are different sorts of activities, but they are all wrought to the same end—God. To each one is given his manifestation of the Spirit for the good of others.

There are seven to eleven Paul mentions various spiritual gifts and lists them, but different gifts are, they are alike in source, the Spirit apportioning them as he will. Gifts do not displace spiritual gifts, he realizes their value, but he enforces in verse 28, by his figure of the body and its members; as all of the members are different but essential to the body, so it is with the church and its members.

Descriptive Atlas of Canada

100,000 Copies Distributed to School Children in Old Country Sign

School children in the British Isles will this year receive over 100,000 copies of a descriptive atlas of Canada, provided by the Department of Immigration. This is part of an intensive publicity to induce immigration.

The atlas is distributed free to students in the Old Country, through the central office of the department in London. Agents of the department travel through the country in demonstration vans, carrying exhibits descriptive of Canadian industries, and they lecture at the various schools. Copies of the atlas are left with the schoolmasters. Large wall maps are also provided.

Canada's book contains eighty pages and is stated to compare favorably with the geographies used in Canadian schools. Besides a large number of colored maps, it contains literature dealing with the physical characteristics, climate and industries of the various provinces. Special emphasis is placed on the opportunities open to those who wish to settle on Canadian farms. The maps have been prepared by the Natural Resources Intelligence Branch of the Department of the Interior, and are stated to be of the most modern type.

The atlas is eagerly received by teachers, officials indicate, and is claimed to have very much to do with the increasing desire by young people to look towards Canada as their future home.

Large numbers of the book are also in demand in the United States, and thousands of requests for copies have been received from American schools. In congratulating Canadian officials on the excellence of the book, teachers over the border admit that geographies used in their schools give a very restricted and often inaccurate conception of this country. The atlas is particularly in demand in the farming areas in the central States.

Wife (to returning husband at seaside resort): Oh, darling, I'm so glad you're home. We heard that some idiot had fallen over the cliff, and I felt sure it was you."

We have often wondered, in our innocent way, whether the inventor of the telephone booth also designed the breakfast nook.

VISCOUNT PEEL VOICES THANKS OF EMPIRE PARTY

Sydney, N.S.—Delegates of the Empire Parliamentary Association have had their farewells to Canada. "We have been treated like princes. We have been received like old friends," exclaimed Viscount Peel, chairman of the delegation, addressing a final dinner given by the Canadian club and city of Sydney. And to his words of farewell and gratitude were added those of representatives from every parliament in the Empire.

In their journeyings through Canada, Lord Peel felt, members of the British delegation had been able to remove misconceptions. It had been thought in some quarters apparently that the Empire marketing board was an instrument for protecting British goods in Empire markets. In reality it was designed to push Empire goods in the British market and vice versa, as the British Empire had been thought, in some quarters, that the unemployment insurance, miscalculated the dole, and was levying charity. In reality, employees paid his share to a fund and was entitled as of right to his insurance payment when the curse of unemployment fell upon him.

"We have heard it suggested," Lord Peel added, "that we desire to see Canada with inefficient unemployed."

"I repudiate with all my force this Canadian suggestion," he said. "I am convinced, great opportunities in Canada, with good organization, for substantial numbers of able and willing workers from our country who will form a fine type of Canadian citizen. We further discussed the opportunities for the extended investment of capital from Great Britain and the other Dominions and our speakers have laid stress on the need for accuracy for information so that there will be no disappointment to the investor."

General Allenby in New York

British Hero Honored By Official Salute Of U.S.

New York—Field Marshal Sir Edmund H. H. Allenby, so-called last crusader, who conquered the Turks in the Middle East, arrived in New York, was welcomed on his arrival here for the American Legion Convention to be held soon in San Antonio.

Arriving on the liner *Majestic* with Lady Allenby, General Allenby received an official salute from the British army reservation on Governor Island as the city's reception boat *Macoma* carried him from the liner to the battery at the southern tip of Manhattan Island.

The British hero spoke of the growing tendency toward "open diplomacy" among nations but saw no sign for great disarmament at present.

"I do not believe there is anyone in the world who does not want peace if they can get it," he said. "However, one has to be ready for war, as you do not keep backsliding off by leaving the door unlocked."

First Freight Has Reached Fin Flow

Five Tractors Have Been Delivered At Mile 85

Fin Flow, Man.—Following the arrival of the last spike on the Fin Flow Railway, freight has started to drive by train and the first load, consisting of five tractors with tracks on attachments, delivered a mile 85.

There are now five tractors hauling freight in and out of the big mine. The arrival of a further shipment of tractors is expected in the near future and by free-zee-roads to Island Falls should be in shape to stand the heavy traffic which will cross them during the coming winter.

No Demonstrations Allowed Jerusalem.—The district committee of Jerusalem has decided to permit the orthodox Agudath Israel to hold a festival procession on the occasion of Rosh Hashana and has also issued a Moslem edict of prohibition. It was stated that the government would prohibit any religious manifestation in Palestine.

Eliminate Level Crossings Toronto.—With the object of eliminating every level crossing in Ontario the provincial department of highways is having an official report made on every point where railway lines cross one of their highways.

W. N. 17-3764

Fire Takes Four Lives

When Farm House Near Brandon Was Completely Destroyed
Brandon, Man.—Four persons were burned to death when the farm home of Alex Wilson, near Moore Park, Man., was destroyed by fire.

The dead, Mr. and Mrs. Alex Wilson, Mervin Wilson, their son, and Miss Sarah Wilson, Mr. Wilson's sister.

The fire was discovered by I. M. Harrison, a neighbor, when he was awakened by the reflection of the flames upon his window. He put on his clothing and rushed out to discover that the Wilson house was on fire. The blaze was too far advanced at the time to permit rescue work.

W. E. Mann, general storekeeper at Moore Park, door of Mrs. Wilson, was also quickly on the scene, but the heat was so intense that he could not get near the building. All of the bodies were recovered. The cause of the fire is a mystery. The barn, garage and other buildings on the farm were unharmed.

Exhibit For Royal Water Fair

Saskatchewan Will Send Fifty of Its Best Horses

Regina.—Fifty horses, the pick of the Clydesdales, Percherons and Belgians in the province, will represent Saskatchewan at the Royal Fair, Toronto, Nov. 15 to 20. It was decided at a meeting of the livestock board held recently.

While many selections have yet to be made, both in horses and other classes, the board has definitely decided that the following will exhibit: Clydesdales, Experimental Farm at Indian Head, the University of Saskatchewan, John Falconer, Govan, and Mrs. W. H. Bryce, Pennock Lodge, Arrow.

Percherons.—C. M. Rear, Regina; Robert Weir, Weldon; George Doan and Henry Stoney, Lethbridge; Belgians.—C. M. Rear, Regina; Robert Thomas, Grandora; Andrew Nolan, Rouleau.

There are horse exhibits from this province there will be 20 Clydesdales, 15 Belgians and 15 Percherons. Many other exhibitors are yet to be named.

Adheres To Peace Pact

Soviet Deposit Note With State Department At Washington

Washington, D.C.—Royalty Russia has joined the other Nations adhering to the Kellogg-Briand treaty for renunciation of war. A document officially signifying Soviet adherence has been deposited with the State department by the French embassy, acting on behalf of the Moscow government, the United Front learned.

State department officials declined to comment on the document, but said it was placed with the original copy of the treaty. Officials intimated it would not be made public.

Zeppelin Makes First Trip

Paid Friendly Visit To England and Returned To Berlin

Berlin.—After paying a friendly visit to the English, the German dirigible Graf Zeppelin returned to Berlin. As the huge airship soared over the city in the bright sunshine thousands flocked to the streets and saw it describe a graceful loop over Wilhelmstrasse. Flowers for President Von Hindenburg, attached to a small parachute, were released as the airship passed over Executive Palace, but they were carried six blocks beyond the building.

Find Victim Of Plane Crash

Port Angeles, Washington.—The body of Dr. E. Holden, of Victoria, B.C., one of the seven victims of the ill-fated Victoria-Seattle plane which disappeared while en route to Seattle, August 20, was found in Port Angeles harbor. The body was headless and badly burned. It was the fourth body of the seven in the plane to be found. The plane itself has never been located.

Premier King Returning

Ottawa.—Premier Mackenzie King will sail for Canada on or about the 19th of this month, according to word received here. He will probably be accompanied on his return journey by Hon. C. A. Dunning, minister of railways; and Hon. Basil Davidson, government leader in the senate.

Trails Lost Scout

Windsor, N.E.—Col. Collins, south Alberta delegate to the Empire Parliamentary Association, discovered W. Muncey, missing Canadian scout of the Red War, when Collins was seen seeking all over Canada, resides at 1225 27th Avenue, Vancouver.

Arrest Train Bandit

Robber Of Ontario Mail Car Offered No Resistance

Windsor.—Three hours after a mail car had been rifled of Canadian currency estimated at about \$40,000, John Gibbs, 20, said to come from Los Angeles, Cal., was arrested by the local police on a Detroit River train ferry and landed in the goal here. According to authorities here he has admitted his guilt. When taken into custody he was carrying two pistols but offered no resistance to the officers.

The robbery was a most daring one the lone bandit holding the mail clerks helpless at the point of a revolver while he calmly looted the car.

Major Godfrey Returns

Brings Motor Of Big Seaplane Which Was Wrecked In Crash

Edmonton.—Major A. E. Godfrey, noted Canadian aviator, whose recent crash in the northern wilds attracted Dominion-wide attention, arrived in Edmonton recently from France. He was accompanied by Sergeant-At-Arms Graham, one of his three companions on the flight which ended in the plane's crash.

Major Godfrey brought with him the motor of the big Fairchild seaplane which he and Sergeant Graham remained behind to salvage from the wreckage of the machine. The motor was forwarded to Ottawa.

TO INVESTIGATE MARKETING OF CANADIAN WHEAT

Winnipeg.—Conditions surrounding the marketing of the wheat crop are the main concern at present of W. R. Motherwell, federal minister of agriculture, who was here in connection with departmental business.

Immediately following his arrival in the city Mr. Motherwell went to the Board of Grain Commissioners to the Grain Exchange for a meeting with the inspection staff, spent a day at Fort William inspecting the handling of grain there. The minister indicated that investigation into some conditions pertaining to the marketing of Canadian wheat was in progress, partly as a result of complaints which he had heard in the British Isles during his recent trip in connection with the marketing of last year's crop.

In his investigations abroad, Mr. Motherwell was guided by the relation of Canadian production and trade to that of the countries he visited, keeping a sharp lookout for methods which might be applicable in Canada, and opportunities for marketing of Canadian products. He found in the British Isles a strong sentiment for empire products, built as far as Canada was concerned, on proven quality. He estimated that Canada could market four or five times as much dairy produce by doubling her production, and exporting the surplus over abroad.

While in Winnipeg, Mr. Motherwell plans to visit the Rusk Research Laboratory at the Agricultural College, and he will consult the members of his staff in the various branches of the department here.

Farmers To Hold Meeting

Saskatoon, Sask.—Some 400 farmers who specialize in the breeding of horses, cattle, sheep and swine will gather in Saskatoon on January 22 and 24, when the Saskatchewan Livestock Association, with all its sections, meets in annual convention. Sessions will be held in the King George Hotel here, and there will be discussion of the current conditions and aspects of stock farming in the province.

A VERY GRIM TALE

Once upon a time there were three bears. Along came the Trans-Canada and then there were two. The moral to this little story is—do not trespass on the railway tracks. Mother Bear is seen giving her sons an airing at Lake Louise (C.P.R. photo).

POLICY IS CRITICIZED

Lord Cushenham, whose foreign policy on behalf of Great Britain is denounced by David Lloyd George as "one of barely veiled subserviences to France."

Believes River Under Control Of Dominion

Hon. N. W. Rowell Says Federal Rights Not Limited To Tidal Waters

Ottawa.—The Dominion parliament has authority to declare the existence of a public right of navigation over any river navigable in fact. Before the Supreme Court of Canada, Hon. N. W. Rowell, K.C., counsel for the Dominion, made further contention on the question of federal and provincial control respecting navigation and water ways.

"If a public right to navigation does not exist, as Ontario suggests, on the Great Lakes and the western portion of the St. Lawrence, Mr. Rowell proceeded, "then under the British North America Act and the powers of the Dominion in regard to navigation and shipping, the Dominion has power to take action in the interests of having a national highway for trade and commerce in Canada. My contention is that the Dominion has absolute control over navigation and shipping."

Opposes Renewals Of Entente

Ramsay MacDonald Thinks Alliance With France Is Unwise

London, Eng.—At the recent Labor conference, Ramsay MacDonald made an important speech saying, "We must orient our diplomatic policy to France. I say that, without equity to France, it is not good for France or for us that we should re-establish any sort of alliance."

France is bound to take notice of this declaration on British policy from the leader of the opposition. The country has not yet any clear knowledge as to whether the present government is re-establishing the alliance with France, but unpublished agreements as to armaments on land seem to imply a new entente.

Ramsay MacDonald proposes to drop a declaration from the government on the basis of the present month. There are reports that the French government will immediately publish all correspondence on the naval side of the agreement. The understanding as to land forces is also to have been expressed only verbally.

To Open Office In Peru

Ottawa.—G. R. Stevens, Canadian Trade Commissioner in South Africa, has arrived in Canada on route to Peru, where he will open a new office with jurisdiction over Peru, Bolivia and Ecuador. Prior to his departure for South America, Mr. Stevens will visit manufacturing centres of Canada in connection with Canadian exports to his former territory.

Turned Adrift In Leaky Boat

Quebec Liquor Commission Inspector Threatened With Death By Captors

Montreal.—Joseph A. Patry, Quebec liquor commission inspector, was kidnapped by bootleggers at Riviere Du Loup. He managed to reach shore by paddling his craft with an old piece of wood.

Patry was instructed to probe suspected illegal transportation of liquor by boat to New Brunswick, and with two companions set out for a large gasoline yacht which was anchored a short distance from the shore. The yacht's engines were started and the yacht set out for the middle of the river. Patry tried to draw the boat back, but his arms were seized from behind and he was warned if he raised an outcry he would be killed, and his body thrown overboard.

The officer was lowered into a leaky rowboat and left to his fate. The matter has been reported to the authorities.

Odd Accident To Airplane

Making Forced Landing Was Carried Out Over Lake

Ottawa.—An unusual forced landing at Black Lake, Que. in which the pilot and four passengers escaped uninjured, has been reported to the air board by the Canadian Transportation Inquiry.

Engine trouble forced down a plane piloted by J. Vachon. An effort was made to land on the ground but the momentum carried the machine out on the water. A serious accident was only avoided because the plane was of amphibian type. It was stated. The left wings of the air craft were slightly damaged.

Has Narrow Escape

Kansas City, Kansas.—The life of Daniel Tovelich, 14-month-old baby who was attempting to crawl across the tracks of the Santa Fe railway, was saved when an approaching train was halted just as the front end of the engine entered over the baby. Hiding suddenly to see what the fuss was about, the baby suffered a slight bruise when he struck his head on the lower part of the engine.

Mining Office At The Pas

The Pas, Man.—Establishment of a government mining office at The Pas has been effected by Hon. Chas. Stewart, minister of the interior. It will be under the direction of C. C. Ross, Alberta, Fred V. Sichert and A. L. Cumming, engineers of the department, are in charge. The office is in the Bank of Toronto building.

SASKATCHEWAN POOL ELEVATOR SYSTEM EXPANDS

Regina.—An extensive program of country elevator expansion was announced from the head office of the Saskatchewan Wheat Pool in a statement issued by R. J. Moffatt, managing director of the pool, in part as follows:

"It is anticipated that with the completion of elevators now under construction by Saskatchewan Pool Elevators Limited, the country grain handling facilities controlled by the Saskatchewan Wheat Pool for the 1928 crop will include more than 960 elevators, with an average capacity of between 30,000 and 35,000 bushels. This number compares with 727 country elevators in operation for the 1927-28 crop year, an increase of 234 elevators for the current year."

"All told, there have been 240 points in the province which have been approved by the board of directors as points at which Saskatchewan Pool Elevators, Limited, should secure Pool grain handling facilities, either by construction, purchase or lease a country elevator of this number Saskatchewan Pool Elevators has acquired 104 new country elevators by construction; 16 elevators have been secured either by lease or purchase; 19 elevators are at present under construction; and 11 new houses have yet to be built, of which 50 will be located at sidings on new railway lines. Three elevators have been rebuilt at Pool points where elevators were lost by fire, and three purchased elevators have been rebuilt."

"I do not believe there is anyone the construction department of Saskatchewan Pool Elevators, Limited, who is not anxious to see the general elevator extension program, constructed 19 new elevators with its own crew."

DENIAL MADE OF VIOLATION OF LIQUOR LAWS

Ottawa.—Hon. W. D. Fisher, minister of national revenue, has issued a lengthy statement dealing in detail with a certain charge reported to have been made by R. H. Pooley, attorney-general of British Columbia against the government which Mr. Fisher administers.

Mr. Fisher declares that his department is attempting in all sincerity to co-operate with the provinces in the enforcement of their liquor laws and that not in a single instance have licenses for breweries or distilleries been granted when provinces were opposed. The minister deals specifically with the shipment of a carload of whisky from the Province of Goderich and Worts to which, according to news reports, Mr. Pooley made specific mention.

"The charge that the Dominion Government is deliberately violating its own law for the benefit of the liquor interests is utterly untrue," Mr. Fisher declares. "Such a statement would show a poor lack of knowledge of the true situation and a quite apparent disinclination to accept our offer of co-operation. I cannot believe that Hon. Mr. Pooley made such a charge."

The minister suggested that if the British Columbia attorney-general had any fault to find with the Department of National Revenue it would have been for him to address his complaints to the department rather than to issue statements to the press.

New Province For Canada Suggested

Would Consist Of Districts At Head Of Great Lakes

Port William, Ont.—It is expected here that a public meeting will be called any day to consider the question of secession from Ontario and the formation of a fifth province. A similar proposal was made a few years ago but was dropped, but this is again being urged in this district.

Thunder Bay, Rainy River and Kenora districts would form the new province making up in area what they lack in present population.

Falling creature of a tenth legislature, in the Dominion, advocates of secession are willing to move their allegiance from Ontario to Manitoba.

A body of young business men is behind the movement, which was far in advance of public opinion in this city. Citizens in Port Arthur and other centres, however, are said to be willing to join in the proposed campaign.

Will See Air Liner Arrive

Canadian Engineer Going To Lakehurst To Regard Dominion Air Board

Ottawa.—Wing Commander E. W. Stedman, Canadian aeronautical engineer, will view the arrival of the German air liner Graf Zeppelin at Lakehurst, N.J., as representative of the Dominion air board it is learned.

Mr. Stedman examined the big ship this summer when in Germany and discussed the flight with Commander Eckner and other officers who will be in charge of the aircraft. Special attention will be given to the methods used for mooring the immense craft at Lakehurst. A mooring mast 250 feet in height is being erected by the Canadian government at the flying field at St. Huberts, Que., and some improvements may result from Mr. Stedman's observations.

Aged Indian Chief Dead

Valley.—An Indian chief whose age was given in tribal records as 150 years was mourned here by four sons, each of whom is over 90 years of age. He was named Maudan, chief of the Santa Rosa Indians.

Honored Canadian Minister

Paris.—Premier Mackenzie King, of Canada, gave a dinner, Oct. 2, in honor of Hon. Phillips Roy, first Canadian minister to France. The dinner was also tendered as a graceful compliment to Madame Roy, whose birthday it was.

Nurses For Labrador

Montreal.—Two nurses, Misses Cusby and Cole, will be sent to Labrador, dispatched there by the Federal Minister of Health. They will act at outlying stations of Harrington and Mutton Bay.

CHAMPION CHATTER

VOL. 1

Thursday, Oct. 11, 1928.

No. 25

Published in the interests of the People of **Champion and Farmers** of this vicinity.
GEO. L. DEPUÉ, Editor.

EDITORIAL.
Champion is not merely a matter of choice; it is an obligation we owe to those about us. A common attitude of cheerfulness goes a long way toward making a community a worth while place.

Verily "The cow is the mother of prosperity." No nation of people has become highly civilized without her. She produces the best food on earth. She provides the farmer with a crop that he can sell for cash every day in the year.

Eternal Feminine.
When a woman can't think of anything else to say to her husband she cautions him not to eat so fast or smoke so much.
St. Louis didn't win the world's championship.

"Good Equipment Makes a Good Farmer Better."

One says that is TOO BAD. He's from Missouri.
The best way to make others pay their debts is to pay yours.

Heard at the Ring.
Before: "Hey, the bell rang for the 11th round!"
Boxer (who was not doing so well): "Aw! I've set this one out."

Doug, Henderson says: "The Photographer who is not able to make his camera flasher you had better look for some other job. There's such a thing as carrying truth too far."

Lay poet to the gal:
You are a wonderful
Marvelous girl
Ditto, at the end.
And so forth, etc.

Teacher: "How many days in October, Johnny?"
Johnny: "Thirty days has September—All the rest I can't remember—The calendar hangs up on the wall—Why?"

bother me with this at all.

The Mc-Drag Harvester Sharer that I purchased is what I believe to be one of the most practical and economical pieces of machinery that has ever been on my farm. Is what A. Hawkins says about his combine.

The Reason.
Many a man wears last year's fall suit because he doesn't owe for a new one.

No one stretching the truth because there's a rubber shortage.

Don't take yourself too seriously. No one else does.

Local and General

Mrs. A. Manhard was a tea hostess on Wednesday.

Mrs. J. F. Harper left for Calgary on Wednesday night.

Mr. and Mrs. Chas. Anderson are spending the week in Calgary.

Miss Rachel Smith left for Calgary on Wednesday to finish her business course.

Left at Billiard Room, Champion, pair of spectacles and case. Owner call and claim them.

The finder of a mackinaw coat, lost recently between A. Ash's farm and Champion, is requested to notify the Chronicle office.

Excess Baggage is the special feature picture for this Saturday night. This is the same program the Capitol Theatre held for an extra run.

K. R. McLean R.O., of Anderson & McLean, Sight Specialists, 208 8th Ave. West, Calgary, will make his monthly visit to Champion Friday, October 20th. At the Drug Store.

Any information as to the whereabouts of the W.I. flag will be gladly received. The staff also is missing. Phone 44 or communicate with any of the members if you know its location.

Remember the second meeting of the Elks Lodge for October on Tuesday, the 16th inst. In addition to the regular work refreshments will be served and a specially big turnout is requested.

The apron committee wish all the ladies who have promised aprons for the bazaar to send them to Mrs. Manhard. Put names on so it will be known who has sent them. The bazaar will be held Nov. 17th.

The was a good attendance of members and friends at the October meeting of the Ladies Aid which was held at the home of Mrs. L. M. Groves. After the business meeting a very enjoyable time was spent. Refreshments were provided by the hostess.

A cub reporter, frequently reprimanded for prolixity and warned to be brief, turned in the following: "A shocking affair occurred last night. Sir Edward Hopeless, a guest at Lady Pamore's ball, complained of feeling ill, took a highball, his hat, his coat, his departure, no notice of his friends, a taxi, a pistol from his pocket, and finally his life. Nice chap. Regrets and all that."

Georgian Singers Coming

Take a trip with us to Old England, Bonnie Scotland, the Emerald Isle and the Sunny South in song and story. Educational and entertaining; not a dull moment. A show that pleases everyone.

Added Attraction—A one-act Comedy Skit entitled "Who Done It," by the entire company.

The artists include Isabel Joffile, Soprano and Reader; Gloria Wilton, Pianist and Contralto; Horace Chapman, Lyric Tenor; William Kennedy, Bass; Profundo; John Edmondson, Baritone, Comedian.

Don't miss this. Remember the date—Friday, Oct. 18.

Lost—On Friday, September 25th, near Geo. Rhodes' farm, a leather coat, letter in pocket with name of owner, E. Hamre. Finder please leave at Chronicle office.

YANKS WIN WORLD TITLE

Sportsman Park, St. Louis, Mo., Oct. 16—The Yankees said it with home runs Tuesday and brought the 1928 world's series to a crashing, record-busting conclusion with their fourth straight triumph over the Cardinals.

Five crackling circuit clouts, three of them by the one and only Babe Ruth, four of them in two successive innings and all of them sounding taps for the Red Birds, enabled the Yanks to win the decisive count of 7 to 3 and record a new world's series achievement by making their second successive clean sweep over National League champions.

John Philip Sousa says he has traveled more than 1,200,000 miles while concert touring in various parts of the globe. This is not the only reason, however, why he is known as the "March King."

It may not be significant, but the plan is to re-arrange wave lengths and clean the air of junk immediately after the campaign closes.

For Sale

Premier Leader-Kitchen Stove, 6 holes, with reservoir. Also several lengths of Stovepipes. All in good repair. Apply to A. Verslype, S. half 20-14-23, Champion.

4 Great Advantages

Others would Pay Millions to be Able to Give.

NO carbon troubles... No valve grinding... Lower up-keep cost... No periodic lay-ups... 4 great advantages... The Willys-Knight sleeve-valve engine assures them all!

The sleeve-valve motor of the Willys-Knight is an exclusive feature which other manufacturers would pay millions to get... but it is protected by patent.

Instead of gradually losing in power and efficiency, in smoothness and silence, as so all cases of poppet-valve design, the sleeve-valve engine Willys-Knight actually improves with use. It grows quieter, more powerful and more efficient with every mile.

And now—Beltex Shockles—still another new and exclusive Willys-Knight feature—Beltex eliminates the metal shockles and provides that the spring parts of the car are insulated from the body—thereby giving permanent chassis silence and diminishing wear at every point of the car.

70" Willys-Knight Six prices from \$1625 to \$1800; Willys-Knight Great Six, from \$2575 to \$3050; Lo-h factory, Toronto, 13288 EX-10.

"70" WILLYS-KNIGHT SIX
